Profile

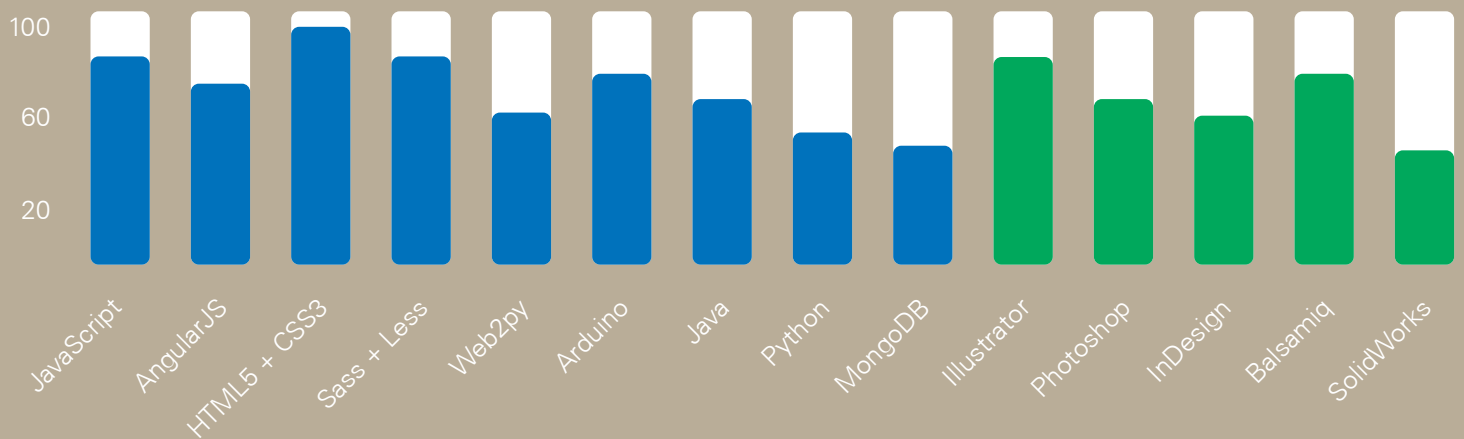

Born and raised in Vancouver, BC, I attended Simon Fraser University where I received a **Bachelors of Science in Informatics** with co-operative education at the School of Interactive Arts and Technology. I focused my technical skills in web development while crafting my creative skills to building a beautiful user interface and thoughtful user experience. I am adventurous and an outgoing person who likes to meet new people and enjoy new experiences.

Work Exp

Web Developer

AngularJS

JavaScript

HTML5+CSS3

CopperTree Analytics 2012 - Present

At CopperTree Analytics, I am a web developer who specializes in user interface design and development. Because of my diverse set of design and programming skills, I am tasked with various roles to design low to high fidelity mock-ups in Illustrator and later implementing my designs using modern web technologies such as AngularJS and HTML5+CSS3.

Graphic Designer

Illustrator

Photoshop

JavaScript

HTML5+CSS3

BlackBerry 2011 - 2012

Hired on the team as a Graphic Designer, I was in charge of producing high quality designs for both web and print material for our marketing department. I was expected to push the limits of my creativity in my work, yet still design within the parameters of our corporate brand identity. In this role, I extensively used Photoshop and Illustrator to create graphics as well as HTML5+CSS3 and JavaScript to create websites.

Volunteer

SIFE

Students in Free Enterprise (SIFE) is a non-profit organization that creates innovative programs to target social, environmental and economic problems in our community. As a general member, I competed and volunteered in several events with the club to help students use their skills to enable change through entrepreneur actions.

IATSU

IATSU is a student club, dedicated to promote the SIAT (School of Interactive Arts and Technology) name and the work of the students. We organize academic and social events on campus such as the SFU Open House and workshops for undergraduate students. As a general member, I helped out in several events to network with fellow peers in the program and outside of the program.
